

# Biotechnology

The **Department of Biotechnology** was founded in the year 2005 with a vision to produce high-caliber researchers. The department has evolved significantly over the years, and with experienced staff, including several doctorates, it is now well-positioned to provide students with opportunities to acquire expertise and build a career. Our cutting-edge curriculum, together with state-of-the-art teaching and research facilities, will provide a strong foundation in biological sciences. The laboratories are well equipped and are periodically upgraded.

## **HR Requirements**

The industrial requirements given by the top recruiters in the field of Biotechnology for the pre-final year students are:

1. Good knowledge in the subjects like Nervous Systems, Microbiology, Bioinformatics, etc.
2. A thorough understanding of the projects done by the students.
3. Basic coding skills in languages like C and C++.
4. Complex problem solving and analytical skills.
5. Teamwork and communication skills.
6. Internships and work experience.
7. Awareness on the current industry trends and ongoing research.
